

WHO WE ARE

GENESIS Group Overview

GENESIS is a leading Specialist Engineering and Contracting group, operating in international markets, in the following business activities.

Mechanical, Electrical and Plumbing Systems (MEP)

Strategic Objectives;

- Improving quality, performance and productivity
- With environmental awareness
- Maximum usage of management and industrial know-how
- Growth and expansion through well-judged

Head Office in ANKARA

Established in 1998

- 14 Personnel
- 6 Engineers
- 1 Technician
- 7 Administrative Officers

Competitive Edge;

- Multi-disciplinary approach to systems,
- Technological innovation,
- Design and fabrication capability,
- Expertise in construction and industry,
- International marketing presence,
- Close cooperation with international leading suppliers,
- Highly motivated, Professional management,

Branch in İSTANBUL

Established in 2006

- 2 Engineers
- 1 Technician
- 1 Administrative Officer

Branch in MISURATA

Established in 1998

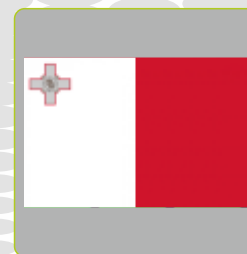

- 1 Engineer
- 1 Technician
- 2 Administrative Officers

Branch in KUWAIT

Established in 2018

- 4 Engineers
- 2 Technicians
- 2 Administrative Officers

Branch in MALTA

Established in 2022

- 2 Engineers

GENESIS Companies

Founding partners of GENESIS control the majority shares of the following companies;

GENESIS ENGINEERING AND CONTRACTING CO.,	ANKARA, TURKEY
GENESIS ENGINEERING AND CONTRACTING CO.,	MISURATA, LIBYA
GENESIS ENGINEERING AND CONTRACTING CO.,	KUWAIT CITY, KUWAIT
GENESIS ENGINEERING AND CONTRACTING CO.,	MALTA

QUALITY POLICY

The Quality Policy of GENESIS is to make sure that its Clients have the satisfaction that all the specific requirements of the contract are met, which will lead to their comfort during the works and in the future.

All members of the Group are required to comply with the quality procedures.

This will be achieved through GENESIS approach to;

- Design, engineering and technology,
- Procurement,
- Project management,
- Construction and installation,
- Commissioning,
- Attracting, developing and retaining high caliber staff,
- Continuous improvement and training,
- Safety,
- Environmental considerations,
- Quality, commitment and value.

QUALITY CERTIFICATE, AWARDS AND ACCREDITATIONS

- ISO 9001:2000 Quality Standards Certificate (QS Certificate of Approval)
 - Franchised Panel Builder Certificate (EATON)
 - Certificate of Conformity to Turkish Standards (TSE)
- In accordance with ISO 9001:2000,

- ISO 9001:2000 Quality Standards Certificate (QS Certificate of Approval)
 - Franchised Panel Builder Certificate (EATON)
 - Certificate of Conformity to Turkish Standards (TSE)
- Are committed to operate a comprehensive quality assurance system.

AWARDS

- MEMBERSHIP IN THE CHAMBER OF COMMERCE AND INDUSTRY

WHO WE ARE

WHO WE ARE

HISTORY

GENESIS is established in 1998 especially to provide engineering, production and contracting services in Generator Systems. From its establishment until today, it has performed not just sales, but also private software and hardware applications, engineering services, and prototype circuits design and production in electronics.

Meanwhile, parallel to its foundation goals GENESIS opened a panel manufacturing plant with 1700m² closed area in Ankara in 2002. Acquiring the contracted partnership of EATON panel group, our company started manufacturing LV main distribution panels. MCC and control panels.

Meanwhile, we continue to prepare the projects and to commission the service of synchronization, transfer and scada productions of generator systems.

Since the establishment of the first company of the group, the amount of total commitments made by the above companies in multi-service engineering and contracting have exceeded 180 million USD.

COMPANY FACTS

GENESIS has a total of 180 million USD completed and progressing works, where completed works amount to 100 million USD in value and works in progress are 80 million USD in value.

MEP DIVISION (MECHANICAL, ELECTRICAL AND PLUMBING)

MEP Division of GENESIS Group operates in the Design, Supply, Installation and Test & Commissioning of the following activities.

A - Mechanical Systems

- Air Conditioning Systems
 - I. Chilled Water System
 - II. Condenser Water System
 - III. Central Air Handling System
 - IV. Individual A/C Systems and Controls
- Plumbing Systems
 - I. Domestic Water System
 - II. Waste Water Systems
 - III. Plumbing Fixtures and Fittings
- Fire Fighting Systems
 - I. Fire Stand Pipe System
 - II. Fire Sprinkler System
 - III. Dry Extinguishing System
 - IV. Fire Hose Cabinets

B - Electrical Systems

- Power Systems
 - I. Power Distribution System
 - II. Switching, Protection and Control Ssystems
 - III. Auxilary Power Supply System
 - IV. Lighting Control Systems
 - V. Electrical Devices and Lighting Fixtures
- Low Current Systems
 - I. Sound System
 - II. MATV Systems
 - III. Voice + Data System
 - IV. CCTV & Security System
 - V. Access Control & Door Monitoring System
 - VI. Fire Detection & Alarm System
 - VII. Fire Telephone and Evacuation Systems
- Control Systems
 - I. Building Management System
 - II. Machine Control Centers
 - III. Variable Frequency Drives
 - IV. Energy Metering Systems

APPROACH

APPROACH

APPROACH

GROWTH STRATEGY

GENESIS Group's Growth Strategy is clearly focused on market segments in its main business abroad. The scope of the Group's international operations encompasses five

- *Developing suitable project management methods and expertise;
- *Efficient fabrication, procurement and logistics services for materials and equipment;
- *Attracting, developing and retaining high caliber staff in those geographies;
- *Establishing the necessary knowledge management systems.
